Soft Skills	Problem Solving, Attention to Detail, Fast Learner, Team Collaboration

INTERNSHIP & PROJECTS

Mern Stack Development — Clothify (E-Commerce Platform) Feb 2026 – May 2026 (3 months)

Personal Project

- Engineered a full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB, supporting 100+ product listings across 8+ categories.
- Implemented secure user authentication , product search & filtering, shopping cart, Wishlist, and end-to-end order management.
- Designed and integrated RESTful API endpoints for product, user, and inventory management.
- Built a responsive admin dashboard managing 500+ product and order records across mobile, tablet, and desktop viewports.
- Deployed the application on Netlify (frontend) and Render (backend), enabling live public access.

Front-End Developer Intern — The Booking House (Hotel Booking Website) Apr 2025 – May 2025 (1 month)

GatesCloud Technologies Pvt. Ltd., Madurai

- Developed a fully responsive hotel booking website comprising 5+ pages (Home, About, Listings, Register, Sign In) using HTML5 and CSS3.
- Collaborated with a senior developer to review and integrate UI feedback within a 1-month sprint cycle.
