Projects

Ember website

- Developed a responsive, interactive quote discovery platform using HTML5, Bootstrap 5, and advanced CSS3.
- Engineered complex UI logic, including category filtering and theme switching (Dark/Light mode)
- Implemented a fluid Masonry grid layout with glassmorphic design elements and smooth keyframe animations for enhanced user engagement

🔧 Tools Used: HTML,CSS, bootstrap.

Chhatrapati Shivaji Maharaj

- Designed a high-impact, thematic user interface utilizing a Saffron & Dark-mode aesthetic with custom Cinzel typography.
- Implemented modern design trends including Glassmorphism, parallax-style hero sections, and responsive image grids.
- Created an interactive CSS-based vertical timeline and a hover-activated fort gallery to enhance storytelling and user engagement.
- Ensured a seamless cross-platform experience using Bootstrap's grid system and mobile-first design principles.

□ Tools Used: HTML,CSS

Technologies

Web Technologies: HTML, CSS, Javascript ,React,MySQL,Java
