Back-End: Java, Python (Fundamentals)

Database: MySQL

Tools & Others: Git (basic), VS Code, Responsive Web Design, Cross-Browser Compatibility

PROJECTS

PerkUpCafé – Online Coffee Ordering Website

Personal Project

Technologies: HTML, CSS, JavaScript

- Designed and developed a fully responsive front-end web application for an online coffee ordering platform, ensuring seamless usability across desktop, tablet, and mobile devices.
- Implemented an intuitive and visually appealing user interface featuring organised product displays, a smooth order flow, and clear navigation to enhance the overall user experience.
- Optimised layout consistency and performance across multiple browsers, addressing cross-browser compatibility challenges.
- Architected the backend logic plan and database schema (MySQL) for future scalability, enabling order management, user authentication, and product catalogue features.

KEY STRENGTHS

- Fast learner with a growth mindset — quickly adapts to new technologies, frameworks, and team workflows.
- Strong logical thinking and debugging skills — able to break down complex problems and implement effective solutions.
- Collaborative and receptive — open to guidance from seniors and mentors, and values constructive feedback.
- Deadline-oriented — consistently meets project milestones and manages time effectively under pressure.

INTERESTS & GOALS

Passionate about building clean, accessible web experiences. Actively exploring React.js and Node.js to transition into full-stack development. Interested in UI/UX design principles and contributing to open-source projects.
