PROFESSIONAL SUMMARY

Motivated and detail-oriented MERN Stack Developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive UI, REST APIs, authentication systems, real-time applications, and database integration. Experienced with deployment platforms, Git workflows, AI-assisted development tools, and modern web technologies. Strong problem-solving abilities with passion for scalable and user-friendly applications.

EDUCATION

B.Tech – Computer Science Engineering
Shobhit University , Gangoh

Expected 2026

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3 , JavaScript (ES6+), React.js, Responsive Designs (In Tailwind and Figma CSS).
- **Backend:** Node.js, Express.js, REST APIs, Authentication
- **Database:** MongoDB (Local and Atlas), SQL
- **Programming Languages:** JavaScript, C++, C#
- **Developer Tools:** VS Code, Cursor AI, Git, GitHub, Vercel, Netlify, Render
- **AI Tools & Techniques:** ChatGPT, Claude AI, Gemini AI, Rabbit AI
- **Other Tools:** MS Excel, MS Word, MS PowerPoint

INTERNSHIP EXPERIENCE

Web Development Intern – Elevate Labs [3 months] , **Full Stack Development Intern – Cyber Core Technologies** [6 Months]

- Developed responsive and interactive web applications using HTML, CSS, JavaScript, and React.js.
- Built secure authentication systems and integrated REST APIs for dynamic functionality.
- Collaborated on frontend optimization, clean UI/UX implementation, and debugging processes.
- Used Git and GitHub for version control and project management workflows.

PROJECTS

Real-Time Chat Web Application

[Live Demo](#)

- Built a full-stack real-time chat platform using MERN Stack with secure authentication system.
- Implemented instant messaging, responsive UI, REST APIs, and MongoDB database integration.

Real-Time Face Emotion Detection

[Live Demo](#)

- Developed AI-powered facial emotion detection system using computer vision and real-time webcam analysis.
- Implemented face tracking, emotion recognition, and optimized browser-based performance.

Full-Stack Feedback Collector System

[Live Demo](#)

- Created a full-stack feedback management platform with MongoDB Atlas cloud database integration.
- Designed responsive forms, backend APIs, and secure data storage with real-time submission handling.

Full-Stack Food Delivery Application

[Project Link](#)

- Developed food ordering platform with authentication, cart management, and responsive user interface.
- Integrated backend services, MongoDB database, and modern deployment workflows.

KEY COMPETENCIES

Responsive Web Development • REST API Integration • Full-Stack Development • Authentication Systems • Database Management • Clean Code Practices • Problem Solving • Team Collaboration
