SUMMARY

Full Stack Developer with hands-on experience in building scalable web applications using modern front-end and back-end technologies. Skilled in JavaScript, React, Node.js, and databases. Focused on writing clean code, optimizing performance, and delivering seamless user experiences.

WORK EXPERIENCE

Zeetron Networks Pvt. Ltd

Jaipur

Full Stack Development (MERN Stack)- Internship

September 2024 - December 2024

- Gained hands-on experience with the MERN stack: MongoDB, Express.js, React.js, and Node.js
- Developed and maintained responsive web applications using HTML, CSS, Bootstrap, and JavaScript
- Built and integrated RESTful APIs using Node.js and Express.js
- Managed and queried MongoDB databases for backend data handling
- Collaborated in end-to-end development, connecting frontend and backend components seamlessly

Infonic Solutions Pvt. Ltd.

Jaipur

Website Developer Cum Content Creator Intern

December 2025 – June 2026

- Developed and maintained responsive websites using HTML, CSS, JavaScript, Bootstrap, and WordPress.
- Created engaging, SEO-friendly content to improve website visibility and user engagement.
- Assisted in website design, development, testing, and maintenance activities.
- Performed Search Engine Optimization (SEO) and digital marketing tasks to enhance online presence.
- Collaborated with the development team to improve website performance, user experience, and content strategy.
- Managed website updates, content publishing, and basic troubleshooting tasks.

PROJECTS

Hotel Room Booking Website

MERN Stack

- Built a full-stack hotel booking platform using MongoDB, Express.js, React.js, and Node.js, with features like secure user authentication, room booking, and a responsive, user-friendly interface designed with Bootstrap.

Food Ordering Website

MERN Stack

- Developed a dynamic food ordering application using React with Vite for the frontend and MongoDB, Express.js, React.js, and Node.js for the backend. Enabled users to browse menus, place orders, and manage accounts with a fast, seamless user experience.

Code Flow

MERN Stack

- Built a real-time collaborative coding platform that allows multiple users to write, edit, and share code simultaneously, supporting multiple programming languages. Works like an online IDE, similar to VS Code, enabling seamless remote collaboration.
