PROFESSIONAL SUMMARY

I am a passionate and versatile Full Stack Web Developer and UI/UX Designer currently pursuing my MCA at Vishwakarma University, Pune. I have strong hands-on skills in both front-end and back-end development, building complete web applications from database design to user interface. On the front end, I work with HTML5, CSS3, JavaScript, React, Bootstrap, and Tailwind CSS to create clean, responsive, and user-friendly interfaces. On the back end, I have working knowledge of Node.js, REST APIs, and databases including MySQL and Firebase, allowing me to build full-featured, data-driven applications. I also bring UI/UX design skills using Figma and Canva, focusing on wireframing, prototyping, and creating intuitive digital experiences. I am a fast learner who enjoys exploring new technologies and turning ideas into real, impactful products.

TECHNICAL SKILLS

Languages	C, Java, Python, JavaScript, SQL
Front-End	HTML5, CSS3, Bootstrap, Tailwind CSS, React
Back-End	Node.js, Express.js, REST APIs
Databases	MySQL, Firebase
Design Tools	Figma, Canva — Wireframing, Prototyping, UI/UX Design
Dev Tools	Git, GitHub, VS Code, Postman

PROJECTS

E-Commerce Product Page

Tech Stack: HTML, CSS, JavaScript, React

- Built a fully responsive e-commerce product listing page with dynamic filtering, cart functionality, and product detail views.
- Integrated a mock REST API to simulate real product data fetching, demonstrating full-stack thinking with front-end + API integration.

Personal Portfolio Website

Tech Stack: HTML, CSS, JavaScript

- Designed and developed a personal portfolio featuring project showcases, an animated skills section, and a working contact form.
- Focused on smooth UX, mobile-first design, and fast load performance.

Task Manager Web App

Tech Stack: HTML, CSS, JavaScript, Firebase

- Created a real-time task management application with user authentication, live task syncing, and priority tagging using Firebase.
- Implemented CRUD operations backed by Firebase Firestore, demonstrating back-end and database integration skills.

Digital Business Card

Tech Stack: HTML, CSS, JavaScript

- Designed an interactive digital business card with a modern layout, social media links, and smooth animations.
- Focused on UI/UX principles to ensure an elegant and engaging user experience across all screen sizes.

To-Do List App

Tech Stack: HTML, CSS, JavaScript

- Built a clean, minimal task management app supporting add, edit, complete, and delete operations.
- Practiced DOM manipulation and local state management best practices.

EDUCATION

Master of Computer Applications (MCA)

2025 – Present

Vishwakarma University, Pune

Bachelor of Science in Computer Science

Completed 2019

MGM College of IT, Nanded

INTERESTS & HOBBIES

I enjoy exploring new places and experiencing different cultures. Outside of tech, I love playing Tug of War and staying active with friends. I am always curious about learning new technologies and keeping up with the latest trends in web development and design. I also enjoy spending quality time with friends and unwinding with good music — it keeps me energized and creative.

ADDITIONAL STRENGTHS

- Strong problem-solving mindset — I break down complex challenges into clear, manageable steps.
- Effective communicator who can explain technical concepts clearly to both technical and non-technical audiences.
- Highly adaptable — I pick up new technologies and frameworks quickly and enjoy stepping outside my comfort zone.
- Collaborative team player who contributes positively to team environments and respects different perspectives.
- Well-organized and deadline-driven — I manage my time efficiently to consistently deliver quality work on schedule.
- Detail-oriented designer with a strong eye for clean, accessible, and visually appealing interfaces.
