

DIKSHA KUMARI

MERN Stack Developer | Full Stack Web Developer

✉ diksha.gzb1@gmail.com ☎ +91-7903007853 📍 Ghaziabad, Uttar Pradesh, India 🔗 LinkedIn 🌐 GitHub

PROFESSIONAL SUMMARY

Aspiring MERN Stack Developer with hands-on internship experience in full-stack web application development. Skilled in React.js, JavaScript, Node.js, and MongoDB, with practical exposure to REST API integration, CRUD operations, and responsive UI design. Proven ability to collaborate effectively in team environments and quickly adapt to new tools, frameworks, and project requirements.

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern – Softronic Automation

Jul 2025

- Built responsive, component-based web applications using React.js and JavaScript, ensuring consistent UI functionality and cross-device compatibility across multiple application modules.
- Designed and optimized MongoDB database schemas and implemented CRUD operations to support core application features, enabling efficient data management and retrieval.
- Integrated frontend React components with backend Node.js/Express services via RESTful APIs, ensuring seamless data flow across the full-stack application.
- Collaborated with cross-functional team members on full-stack development tasks, contributing to frontend-backend integration in an Agile MERN development environment.

EDUCATION

Shambhunath Institute of Engineering and Technology – Prayagraj, Uttar Pradesh

2026

B.Tech, Computer Science Engineering

Government Girls Polytechnic – Prayagraj, Uttar Pradesh

2022

Diploma, Computer Science Engineering

CERTIFICATIONS

- Cyber Security Training Certification
- MERN Stack Development Certification
- IoT Workshop Certificate

TECHNICAL SKILLS

JavaScript, Python, C, React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design, Node.js, Express.js, RESTful API Integration, MongoDB, MySQL, CRUD Operations, GitHub, Git, VS Code, PyCharm, Problem Solving, Team Collaboration, Communication, Quick Learning

PROJECTS

E-Commerce Web Application

2025 – 2025

- Built a full-stack, responsive e-commerce web application featuring user authentication, a dynamic shopping cart, and third-party API integration.
- Designed reusable React.js components to streamline product browsing and checkout flow.

Weather Detection Application

2025 – 2025

- Developed a weather application that processes live weather data via external API integration and presents it through a structured, user-friendly UI workflow.
- Strengthened practical understanding of asynchronous data handling and frontend-backend interaction.

Samachar India – News Web Application

2021 – 2021

- Built a news web application using the Django framework with modular, scalable backend routing.
- Designed the frontend UI to present organized, easy-to-navigate news content.
