SUMMARY

Frontend Developer skilled in React.js, JavaScript (ES6+), and Tailwind CSS, with experience building responsive web applications integrated with REST APIs and JWT authentication. Developed and deployed 3 live projects featuring real-world functionality including authentication, state management, and dynamic data rendering. Seeking a frontend internship or entry-level role.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks/Libraries: React.js, Tailwind CSS, Bootstrap, GSAP

Concepts: Responsive Design, DOM Manipulation, REST API Integration, JWT Authentication, State Management, UI/UX Principles, MVC

Tools: Git, GitHub, VS Code, Postman, Vercel, Axios

PROJECTS

Blog Application (Frontend — React.js)

React.js | JavaScript (ES6+) | Tailwind CSS | JWT | REST API | Vercel

- Built a full-featured blog platform with JWT authentication, protected routes, and role-based access control for 2 user types (admin/user).
- Developed responsive UI for posts, comments, and social features — likes, saved posts, and follow/unfollow system.
- Integrated REST APIs for real-time dynamic content rendering; deployed on Vercel with sub-2s load time and 90+ Lighthouse score.

Live: mega-project-85fr.vercel.app | GitHub: github.com/SY53-56/mega-project

AI Resume Analyzer (Frontend — React.js)

React.js | JavaScript (ES6+) | REST API | CSS | Vercel

- Designed intuitive UI to upload and analyze resumes — dynamically displays ATS score, keyword feedback, and AI-generated interview questions.
- Integrated backend APIs for real-time resume analysis; implemented fully responsive layout across desktop and mobile.

Live: resume-builder-kr7c.vercel.app | GitHub: github.com/SY53-56/resume-builder

E-Commerce Website (Frontend — React.js)

React.js | HTML5 | CSS3 | JavaScript | Vercel

- Built product listing with search, filtering, and category navigation across 20+ products; developed shopping cart and order management flow.
- Implemented JWT-based user authentication with protected routes; designed fully responsive UI across all screen sizes.

SELF-LEARNING & DEVELOPMENT

Independent Study — Frontend Development

- Built and deployed 3 React.js applications from scratch — all live on Vercel with public GitHub repositories.
- Self-studied JavaScript (ES6+), React.js, Tailwind CSS, REST API integration, and JWT authentication through project-based learning.
- Practised performance optimisation, cross-device compatibility, and clean component architecture across all projects.
- Maintained version-controlled codebases using Git and GitHub with consistent commit history.

EDUCATION

Bachelor of Arts (Political Science) — Delhi University | 2024 – 2027 | Pursuing self-directed frontend development in parallel through hands-on project building.
