PROFESSIONAL SUMMARY

Computer Science graduate with experience leading full-stack development teams and building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). Proficient in JWT-based authentication, RESTful API development, database design, Git version control, and responsive UI development. Hands-on experience in the fintech domain with exposure to end-to-end product development, including backend development, frontend engineering, API integration, and UI/UX design, with a focus on building secure, performant, and user-centric applications using Agile development practices.

SKILLS

Languages: Python, C, C++, Java, HTML, CSS, JavaScript

Frameworks: React.js, Next.js, Node.js, Express.js, NumPy, Bootstrap, FastAPI

Databases: MySQL, MongoDB, SQL

Tools/ Platforms: Github, VSCode, Figma, Canva, PyCharm, IntelliJ IDEA

EXPERIENCE

Software Development Engineer Intern

June 2025 - July 2025, Remote, India

Bluestock

- Overseeing end-to-end product delivery across frontend, backend, and database layers
- Architected and implemented JWT-based authentication system with protected route guards, token issuance, refresh logic, and session management using React.js and Node.js
- Designed and developed Login/Signup, Dashboard, Landing, and Stock/Finance data pages with fully responsive layouts using React.js, HTML5, and CSS3
- Engineered real-time stock and financial data views by designing and consuming RESTful APIs to fetch, parse, and render live market data dynamically
- Built and maintained backend REST APIs using Node.js and Express.js, designing database schemas and query logic to support all frontend data requirements
- Conducted UI/UX design for the full platform—creating wireframes, component hierarchies, and a consistent design system across all pages
- Enforced Git-based collaboration workflows—feature branching, pull requests, and code reviews – maintaining code quality and team productivity across the stack

PROJECTS

Expense Tracker | React.js, Node.js, Express.js, MongoDB

- Architected and developed a full-stack expense management application with secure JWT-based authentication and authorization.
- Designed RESTful APIs and MongoDB data models to manage user accounts, income/expense records, and transaction history.
- Implemented interactive financial analytics dashboards using Bar, Pie, and Line charts for expense visualization.
- Developed Excel export functionality and responsive UI components to enhance data accessibility across devices.
- Independently handled frontend, backend, database design, API integration, and deployment workflows.

Task Management App | React.js, Node.js, Express.js, MongoDB

- Built a full-stack task management platform enabling task creation, updating, deletion, and status tracking through RESTful APIs.
- Designed and implemented backend services and MongoDB schemas to ensure efficient task storage and retrieval.
- Developed a responsive React-based user interface with reusable components and seamless client-server communication.
- Applied CRUD operations, state management, and API integration to deliver a scalable and maintainable application.
- Independently managed the complete software development lifecycle from design to implementation.

Spotify Clone | HTML5, CSS3, JavaScript

- Developed a responsive music streaming interface replicating core Spotify functionalities using vanilla JavaScript.
- Implemented audio playback controls including play, pause, seek, volume adjustment, and track navigation.
- Engineered dynamic DOM manipulation and event-driven interactions to provide a smooth user experience.
- Designed mobile-friendly layouts and UI transitions with modern CSS techniques and responsive design principles.
- Built the application independently, focusing on frontend architecture and user experience optimization.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering

ITM University, Gwalior, India

2021 – 2025 | CGPA: 8.16 / 10

CERTIFICATIONS

Wipro TalentNext – Java Full Stack Developer

Salesforce Administrator Certificate

AWS Academy Cloud Foundation

More Certificate
