EXPERIENCE

MERN Stack Intern

October 2025 - January 2026

Globiz Technology

📍 Ludhiana, India

- Developed and optimized the **Dashboard, Navbar, and E-Learning modules** using **React.js** and **Node.js** to improve overall user interface responsiveness.
- Built and integrated **RESTful APIs** for lecture and product upload features to support smooth backend functionality.
- Implemented real-time data updates and improved component rendering using **React Hooks (useMemo, useCallback)** to enhance page performance.
- Designed and optimized **MongoDB schemas** for users, courses, and products to ensure efficient data management.

Frontend Developer Intern

January 2025 - April 2025

Wayspire

📍 Gurugram, India

- Developed responsive and interactive user interfaces using **React.js, HTML, CSS, and Bootstrap**, improving overall user experience and UI responsiveness.
- Implemented dynamic frontend features such as forms, validation, and state management using **React Hooks**, ensuring smooth user interaction.
- Integrated frontend components with **REST APIs** to fetch and display real-time data, improving application functionality and data flow.

ACHIEVEMENTS

- Solved DSA problems on platforms like **LeetCode** and **GeeksforGeeks**, strengthening problem-solving and JavaScript logic building skills.
- Developed **10+ full-stack web projects** using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**, implementing features such as authentication, REST APIs, and responsive UI.
- Secured **Top 10 position** in the **DevCreate Hackathon** by building a functional full-stack web application under strict time constraints.

TECHNICAL SKILLS

• Programming Languages

- Javascript, C++, Python

• Frameworks & Libraries

- HTML, CSS, Bootstrap, Tailwind CSS
- ReactJS, NodeJS, ExpressJS, MongoDB, NoSQL

• Version Control

- Git, Github, Github Desktop

• Other Tools

- Postman, Netlify, Cloudinary, Razorpay

COURSEWORK SUBJECTS

- Data Structure and Algorithm, OOPS
- Operating System, DBMS, Computer Networks

EDUCATION

BCA - 7.05 CGPA

Devki Devi Jain College

📅 2023 - 2026

📍 Ludhiana, Punjab

Higher Secondary - 63.7%

Govt. Girls Senior Secondary School

📅 2021 - 2023

📍 Ludhiana, Punjab

PROJECTS

Dhanush Shop

- **MONGODB, ReactJs | NodeJs | Tailwind CSS | Cloudinary | Stripe**
- Developed an **e-commerce platform** with a complete shopping flow and modern user interface using **Tailwind CSS**.
- Integrated **Stripe** for secure online payments and implemented product listing with filtering and sorting features.
- Built essential e-commerce features including **product filters, cart system, and responsive design** for smooth usage across different devices.
- Optimized frontend performance and loading speed to improve overall user experience and engagement.

ShadiSync

- **ReactJs | ExpressJs | MongoDB | Tailwind CSS | Cloudinary | Stripe**
- Built a **wedding planning platform** with role-based access control for users, artists, and admins using the MERN stack.
- Integrated **Stripe** for secure SyncCoin transactions and used **Cloudinary** for efficient media storage and image management.
- Developed dedicated **Artist and Admin dashboards** and designed a responsive user interface to improve the overall user experience across devices.

E-Learning Platform

- **Next.js | JavaScript | Bootstrap | SCSS**
- Developed a responsive frontend for an **e-learning platform** using **Next.js**, creating multiple pages for courses and learning sections.
- Implemented smooth client-side routing to improve navigation between different course modules.
- Styled the user interface using **Bootstrap and SCSS** to maintain a clean and consistent design across the application.

VINGO-FoodDelivery App

- **ReactJs | ExpressJs | MongoDB | Razorpay | Bootstrap | SCSS**
- Built a **food ordering platform** with multiple user roles such as Admin, User, and Delivery Partner, each having separate dashboards and permissions.
- Implemented secure **user authentication using JWT** and added **Google OAuth** for quick sign-in and sign-up.
- Integrated the **Razorpay API** to handle online payments and manage order-based transactions with cart functionality.
- Developed **real-time delivery tracking using Socket.io** and added features like Order History, Cart Management, and Admin Dish Controls.
