

RAJAT KHARBANDA

Hapur, Uttar Pradesh | +91 8266991185 | kharbandarajat11@gmail.com | linkedin.com/in/rajat-kharbanda-bca-graduates

CAREER OBJECTIVE

Dynamic BCA graduate and Software Engineer Associate with hands-on experience in full-stack web development, Python programming, and JavaScript. Proficient in building RESTful APIs, designing scalable applications using MERN stack, and managing SQL/NoSQL databases. Experienced in responsive design, API development, version control, and debugging. Seeking to leverage technical expertise and problem-solving skills to contribute to engineering teams in Full Stack or Data Analytics domains.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), Java (Basic), HTML5, CSS3

Full Stack & Frameworks: React.js, Node.js, Express.js, REST APIs, Bootstrap, Responsive Design

Databases: MongoDB (NoSQL), MySQL, SQL (Basic)

Tools & Platforms: Git, GitHub, Postman, Power BI, Excel, Hugging Face APIs

Core Competencies: API Development, Debugging & Testing, Version Control, Data Analytics, Agile Methodology

Soft Skills: Communication, Problem-Solving, Team Collaboration, Adaptability, Time Management

PROFESSIONAL EXPERIENCE

Web Development Intern | Infotact Solutions

03/2026 - 05/2026

- Developed and maintained responsive web pages using HTML5, CSS3, JavaScript, and React.js achieving 95%+ cross-browser compatibility
- Built reusable UI components with React Hooks improving code modularity and reducing development time by 20%
- Collaborated with cross-functional development team to implement new features and resolve bugs within 48-hour SLA
- Participated in code reviews following best practices to deliver clean, maintainable, and documented code

Front-End Development Intern | One Unit Solutions

09/2025 - 02/2026

- Developed responsive and user-friendly web pages ensuring 100% compatibility across desktop, tablet, and mobile devices
- Translated Figma design requirements into clean, reusable React components improving design consistency by 35%

- Utilized Bootstrap framework to accelerate UI development reducing layout time by 30%
- Resolved 50+ styling issues and implemented UI improvements meeting all project deadlines

PROJECTS

Expense Tracker Application | MERN Stack

08/2025-09/2025

- Built full-stack expense tracking application handling 1000+ transaction records with real-time balance calculation
- Designed RESTful APIs with complete CRUD operations enabling seamless data management for income and expense tracking
- Implemented responsive UI using React.js with functional components and Hooks for optimal state management
- Structured MongoDB database schema improving data retrieval efficiency by 40%

AdvantageGenAI Prompt Processing System | Python Backend

11/2025-12/2025

- Developed backend system processing 500+ user prompts using Python and REST API architecture
- Integrated Hugging Face APIs to optimize user inputs achieving 85% improvement in prompt quality
- Implemented intelligent hashtag and caption generation logic reducing manual annotation time by 60%
- Engineered efficient data flow pipeline ensuring sub-100ms response times for API requests

EDUCATION

Bachelor of Computer Applications(BCA) | Institute of Management Studies, Ghaziabad | 06/2026

Class XII (CBSE) | Dewan Public School, Hapur, UP | 2023

PROFESSIONAL CERTIFICATIONS

- Virtual Internship Program - Data Analytics (Deloitte)
- Machine Learning with Python - IIT Kanpur
- Python for Data Science and AI - Coursera
- Python for Data Visualization - Coursera
- Google Data Analytics Professional Certificate - Coursera
- MERN Stack Development Winter Training - IIT Kanpur (Offline)

ADDITIONAL ACHIEVEMENTS

- Completed advanced technical workshops in Artificial Intelligence, Power BI Data Visualization, and Blockchain Technology
- Actively participated in inter-college hackathons and management fests demonstrating strong teamwork and problem-solving abilities under tight deadlines
