12 th (HBSE) – 92%	2021
Shishu Bharti High School	Bhiwani
10 th (HBSE) – 77%	2019

Experience

Project -1. Bakery Management

I built a small Bakery Management System using Python and Tkinter. The project has a graphical interface where users can add products, update their stock, and record sales. It also shows the current inventory so items can be tracked easily.

Project-2. Ringtone Downloader

The Ringtone Downloader webpage was developed using HTML, CSS, and JavaScript. It allows users to browse different ringtones, select the ones they like, and download them easily. JavaScript adds interactive features that make the downloading process smooth and user-friendly.

Project 3. Quiz Test Competition

Quiz Test Competition is a Python-based platform that conducts timed quizzes. It automatically checks the answers and generates results at the end. The project highlights how Python can be used for quiz management and scoring.

Project-4. Shringi Tech

Shringi Tech website was developed by combining technical and design elements to make a user-friendly interface. The project focused on smooth navigation and easy access to information, ensuring a better experience for visitors.

ACHIVEMENTS

- **Campus Ambassdor (2 X time) | Devtown** 2024
