- Quick Learner

CAREER OBJECTIVE

B.Tech CS graduate with hands-on experience building clean, fast, and responsive websites. Proficient in HTML, CSS, and JavaScript with practical internship experience. Seeking a frontend developer role to grow and deliver quality work.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern — Shine Skills Pvt. Ltd., Ranchi

3 Months | Frontend Developer (HTML, CSS, JavaScript)

- Built web pages from scratch — HTML structure, CSS styling, JS interactivity.
- Ensured responsiveness across devices using media queries and flexible layouts.
- Developed UI components: navigation bar, product cards, contact forms.
- Added product filters, working cart, and form validation using plain JavaScript.
- Collaborated with backend developer to integrate frontend and resolve testing issues.

PROJECTS

Resume Analyzer using NLP | Final Year Project

Role: Frontend Interface & Text Preprocessing

- Designed full web interface using Streamlit — file upload, score display, suggestion cards.
- Extracted text from PDF/Word resumes and parsed contact details using regex.
- Preprocessed resume text: tokenization, stopword removal, and lemmatization.
- Tested on real resumes and improved accuracy over multiple iterations.

E-Commerce Website | Internship Project

Tech Stack: HTML5, CSS3, JavaScript

- Built full shopping site with product pages, category filters, and real-time cart.
- Fully responsive across phones and laptops. Delivered on time with positive feedback.
