SUMMARY

Frontend Developer with internship experience in responsive web development and UI implementation. Skilled in HTML5, Tailwind CSS, JavaScript, React.js, and Figma. Developed multiple web applications and user-focused interfaces with emphasis on responsiveness, performance optimization, and usability. Passionate about building modern web experiences and continuously improving frontend development skills.

TECHNICAL SKILLS

- Frontend Technologies:
HTML5, CSS3, Tailwind CSS, JavaScript, React.js
- Programming Languages:
JavaScript, Python, C, C++
- Computer Vision & AI:
OpenCV, TensorFlow
- Cloud & Platforms:
AWS
- Tools:
Git, GitHub, Figma, VS Code, Power BI, MS Office
- Additional Tools:
Unity, Blender

PROFESSIONAL EXPERIENCE

Software Developer Intern | Sahyadri Software

Sep 2024 - May 2025

- Developed a responsive Gym Management Website using React.js, Tailwind CSS, JavaScript, and HTML5.
- Built reusable UI components and implemented modern frontend development practices.
- Collaborated with designers to convert Figma wireframes into responsive web interfaces.
- Optimized website performance and usability across multiple devices and browsers.

C/C++ Intern | LeadSoft IT Solutions

Feb 2023

- Strengthened programming fundamentals through practical C and C++ development exercises.
- Collaborated with team members on coding assignments and debugging tasks.
- Applied problem-solving techniques and algorithmic thinking to project requirements.

PROJECTS

Water Guardians: Groundwater Conservation Game

Tech: Unity, C#, Blender, AWS, MySQL

- Developed an educational mobile/web game promoting groundwater conservation awareness.
- Designed gameplay mechanics and interactive user experiences using Unity.
- Integrated backend data storage using MySQL and AWS services.
- Collaborated on 3D asset creation and game environment design using Blender.

Driver Drowsiness Detection System

Tech: Python, OpenCV, TensorFlow

- Developed a real-time driver monitoring system using computer vision.
- Implemented facial landmark detection and eye-tracking algorithms.
- Generated automated alerts upon detecting signs of driver fatigue.
- Improved road safety through real-time detection and notification mechanisms.

Hospital Management & Appointment Booking System

Tech: HTML, CSS, MySQL

- Developed a web-based appointment booking platform for patients and doctors.
- Designed database schema using MySQL for appointment management.
- Created responsive user interfaces using HTML and CSS.
- Automated scheduling workflows to improve appointment management efficiency.

EDUCATION

Bachelor of Technology (B.Tech)

Computer Science & Engineering

Dr. Babasaheb Ambedkar Technological University

2025

CERTIFICATIONS

- Responsive Web Design Certification – freeCodeCamp (2025)
- Mobile App Development Workshop using Flutter – Karmaveer Bhaurao Patil College of Engineering, Satara
- Drone Building & Flying Workshop – OSRO Aerotech

LANGUAGES

Languages: English, Hindi, Marathi

ACHIEVEMENTS & LEADERSHIP

- Secured 1st Place in Mini Project Competition for innovative project development.
- Organized and coordinated inter-college technical project exhibitions, managing event execution and participant engagement.
- Led and captained the college cricket team to victory in the Annual Sports Tournament (2024, 2025).
