RESUME SUMMARY

I am a motivated BCA student at SRTMU with strong skills in CSS, HTML, Java, and graphic designing. I aspire to leverage my creativity and technical knowledge to contribute effectively in the IT and design fields, continuously enhancing my expertise and delivering innovative solutions.

EDUCATION

Graduation

Course	BCA - Bachelor of Computer Applications (Computer Applications (General))
College	Swami Ramanand Teerth Marathawada University (SRTMU)
Score	9.3%

Class XII

Board Name	Maharashtra
Medium	English
Year of Passing	2022
Percentage	85.67%

Class X

Board Name	Maharashtra
Medium	Marathi
Year of Passing	2020
Percentage	80.2%

PROJECTS

Medipredicta , January 2026 - April 2026

- MediPredicta is a healthcare-based system designed to help users predict possible diseases based on the symptoms they enter. The system analyzes the symptoms and provides possible disease predictions along with basic health information. It also allows users to book doctor appointments and give feedback. The main goal of this project is to make healthcare support easier and faster by using technology.

Data Analytics Dashboard , October 2025 - December 2025

- Developed a Data Analytics Dashboard to analyze and visualize large sets of data in an easy and understandable way. The dashboard displays key performance indicators (KPIs), charts, and reports that help users quickly understand trends, patterns, and insights from the data. This project helps in making better data-driven decisions by presenting complex data in a clear visual format.

Airlines reservation , January 2025 - April 2026

- Developed an Airline Reservation System that allows users to search for available flights, book tickets, and manage reservations. The system helps passengers easily check flight schedules, enter passenger details, and confirm bookings. This project improves efficiency in the ticket booking process and reduces manual work.

Calculator , August 2024 - November 2025

- Developed a simple Calculator application to perform basic arithmetic operations such as addition, subtraction, multiplication, and division. The application provides a user-friendly interface where users can enter numbers and perform calculations quickly and accurately. The project helps in understanding basic programming logic and mathematical operations.

AWARDS AND HONOR

- Selected among the Top 10 Students during graduation for excellent academic performance.
- Received Student of the Year Award in 12th standard in recognition of academic excellence and overall performance.
