SUMMARY

Full Stack Developer skilled in building and deploying MERN stack applications with a focus on clean UI, secure authentication, and real-time functionality. Passionate about writing efficient code and delivering polished user experiences.

SKILLS

Programming: Javascript, Python, SQL
Web Technologies: HTML, CSS
Frameworks: ReactJS, TailwindCSS, NodeJS, ExpressJS
Databases: MongoDB, MySQL
Developer Tools: Git, Github, Render, Vercel

PROJECTS

TooDue - Task Manager

[Link](#)

- Developed and deployed a full stack task management app with secure authentication functionality.
- Built a REST API with Node.js and Express to handle CRUD operations.
- Implemented JWT-based authentication and protected routes.
- Connected frontend and backend systems with MongoDB database integration.
- Deployed backend on Render and frontend on Vercel.

Pivo - Chat App

[Link](#)

- Built a real-time chat application supporting multi-user conversations with instant message delivery.
- Leveraged Socket.io to enable live bidirectional communication.
- Deployed the full stack application on Render with MongoDB Atlas as the cloud database.
- Secured the application using JWT tokens, password hashing, and cookies for session persistence.

Spendwise - Expense Tracker

[Link](#)

- Developed a responsive expense tracking application for managing personal financial records.
- Implemented expense addition, deletion, and real-time balance calculations.
- Improved DOM manipulation and frontend development skills.
- Built responsive layouts and user-friendly interfaces.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science
LNCTE, Bhopal

2025

ACHIEVEMENTS & CERTIFICATIONS

Web Development Fundamentals - IBM
