Projects

◦ agency website

This project is a frontend-based website where I focused on creating a clean and responsive user interface using HTML, CSS, and JavaScript. I worked on making the design user-friendly and smooth across different devices. For the form, I connected it to Google Sheets using a simple API approach with Google Apps Script, so whenever a user submits data, it gets stored directly in the sheet. Through this project, I learned how to handle UI design, work with APIs, and manage real user data without
