SUMMARY

Full-Stack Developer skilled in building responsive user interfaces, RESTful APIs, and scalable backend systems using MongoDB, Express.js, React.js, Node.js, and Python. Experienced in delivering clean, maintainable solutions across the full development lifecycle. Adaptable and detail-oriented, with a focus on high-performance, user-friendly applications.

SKILLS

Languages: JavaScript (ES6+), Python, PHP

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, Python Backend Development, Laravel

Database: MongoDB, Mongoose, SQLite, MySQL

Tools: Git, GitHub, Postman, Vercel, Render

AI Tools & Technologies: OpenAI API, Prompt Engineering, AI Integration, FastAPI

CMS: WordPress (Theme Customization, Plugin Integration, Website Management)

EXPERIENCE

Laravel & WordPress Full Stack Developer Intern

Freshers Opportunity | Real-World Projects

- Working on real-world projects using Laravel, WordPress, PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, and REST APIs.
- Gaining hands-on experience in custom web application development and WordPress website management.
- Performing theme customization, plugin integration, and database design for client projects.
- Handling frontend development, API integration, debugging, and version control workflows.
- Implementing SEO-friendly development practices and deployment workflows.
- Collaborating with experienced developers across the full development lifecycle.

Website Design & Development Intern

Istudio | June 2025 – December 2025

- Developed 10+ responsive web pages using HTML, CSS, Bootstrap, and JavaScript.
- Built reusable UI components using React.js and Tailwind CSS for better scalability and maintainability.
- Identified and fixed UI bugs, improving overall application stability and user experience.
- Integrated REST APIs and optimized data rendering for smoother performance.
- Used Git and GitHub for version control and collaborative development.

PROJECTS

PDF HUB

React.js, Vite, Python

- Built a responsive web application offering 12+ PDF tools including merge, split, compress, and convert features.
- Developed frontend using React.js and Vite for fast performance and smooth user experience.
- Created Python backend APIs for secure file processing and downloads.
- Deployed frontend on Vercel and backend on Render.

PulseGuard

MERN Stack

- Built a real-time uptime monitoring and keep-alive web application for APIs and deployed servers.
- Developed responsive frontend with live status tracking and dynamic UI updates using React.js.
- Created REST APIs with Node.js and Express.js for monitoring tasks and uptime management.

- Integrated MongoDB for efficient storage and retrieval of logs and uptime records.
- Implemented automated ping checks, real-time monitoring, and alert notification features.

EDUCATION

B.Sc. Computer Science

B.N.N College, Bhiwandi | Graduated: 2026
