**Summary:-** Final-year B.Tech CSE student (Gurugram University, 2026) with 6 months of industry experience as a Frontend Developer Intern at Gigggle. Skilled in MERN Stack Development — React.js, Node.js, Express.js, MongoDB Atlas, REST APIs, JWT Authentication and Responsive UI Development. Built and deployed 4 full-stack applications including a College Management System, Invoice Generator, Gallery Portal and Personal Portfolio. Seeking opportunities as a MERN Stack / Full Stack Developer.

## EDUCATION

|             |                                                      |                     |
|-------------|------------------------------------------------------|---------------------|
| 2022 - 2026 | B.Tech in CSE at <b>Gurugram University, Haryana</b> | (CGPA: 7.69/10)     |
| 2021 - 2022 | Senior Secondary (XII) at <b>HBSE, Haryana</b>       | (Percentage: 74.6%) |
| 2019 - 2020 | Secondary (X) at <b>CBSE Board</b>                   | (Percentage: 80.4%) |

## EXPERIENCE

|                                  |                     |
|----------------------------------|---------------------|
| <b>Frontend Developer Intern</b> | Jul 2024 - Dec 2024 |
| <i>Gigggle</i>                   | Gurugram, Haryana   |

- Developed **JuniorCred**, a LinkedIn-like networking platform for children using React.js, Tailwind CSS and REST APIs.
- Built **15+ reusable UI components** improving maintainability and development speed.
- Integrated **5+ REST APIs** for authentication, profiles, feeds and forms.
- Implemented **JWT-based authentication** and role-based access control.
- Collaborated in **Agile development cycles** with code reviews and sprint planning.

## SKILLS

|                               |                                                                        |
|-------------------------------|------------------------------------------------------------------------|
| <b>Languages:</b>             | JavaScript, Python (Basic), C++, HTML5, CSS3                           |
| <b>Frontend:</b>              | React.js, React Native, Tailwind CSS, Bootstrap, Responsive Web Design |
| <b>Backend:</b>               | Node.js, Express.js, REST APIs, JWT Authentication, RBAC               |
| <b>Database:</b>              | MongoDB, MongoDB Atlas, Mongoose                                       |
| <b>Tools &amp; Platforms:</b> | Git, GitHub, VS Code, Cloudinary, Netlify, Vercel, Chrome DevTools     |
| <b>Miscellaneous:</b>         | Problem Solving, API Integration, Agile Development, Responsive Design |

## PROJECTS

|                                  |                                               |
|----------------------------------|-----------------------------------------------|
| <b>College Management System</b> | <a href="#">Live</a>   <a href="#">GitHub</a> |
|----------------------------------|-----------------------------------------------|

*Tech-Stack: React.js, Node.js, Express.js, MongoDB, JWT*

- Built a full-stack ERP platform for Admin, Teacher and Student management.
- Implemented secure authentication and role-based dashboards.
- Developed 12+ REST API endpoints for attendance, results and user management.
- Deployed complete MERN application with responsive UI.

|                          |                                               |
|--------------------------|-----------------------------------------------|
| <b>Invoice Generator</b> | <a href="#">Live</a>   <a href="#">GitHub</a> |
|--------------------------|-----------------------------------------------|

*Tech-Stack: React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack invoice generation platform with PDF export.
- Implemented GST calculations and invoice CRUD operations.
- Created REST APIs with MongoDB Atlas integration.
- Enabled real-time invoice management and data persistence.

|                       |                                               |
|-----------------------|-----------------------------------------------|
| <b>Gallery Portal</b> | <a href="#">Live</a>   <a href="#">GitHub</a> |
|-----------------------|-----------------------------------------------|

*Tech-Stack: React.js, Node.js, Express.js, MongoDB Atlas, Cloudinary*

- Built a medical file management system with category-based organization.
- Developed file upload, retrieval and deletion APIs.
- Integrated Cloudinary for cloud storage.
- Designed responsive dashboard and file management interface.

|                                   |                                               |
|-----------------------------------|-----------------------------------------------|
| <b>Personal Portfolio Website</b> | <a href="#">Live</a>   <a href="#">GitHub</a> |
|-----------------------------------|-----------------------------------------------|

*Tech-Stack: HTML, CSS, JavaScript*

- Designed and deployed a responsive personal portfolio website.
- Showcases projects, technical skills and GitHub contributions.
- Hosted on Netlify with mobile-friendly design.

## ACHIEVEMENTS / CERTIFICATIONS

- Completed **Frontend Developer Internship** at Gigggle.
- CSS, Bootstrap, JavaScript & Web Development** — Udemy.
- C++ Code Matrix: Mastering C++** — Udemy.
- Python Development Essentials** — Codeliber.
- Privacy & Security in Digital Social Media** — Online.
- Git & GitHub Essentials** — Project-Based Learning.
