PROFESSIONAL SUMMARY

Motivated and detail-oriented **Web Developer** with a background in Computer Applications and strong knowledge of front-end technologies. Skilled in building responsive websites using **HTML, CSS, JavaScript, React**, with experience in version control using **Git and GitHub**.

Familiar with AI tools like **ChatGPT** and more to improve productivity, debugging, and development workflow. Passionate about creating efficient, user-friendly web applications and continuously learning modern technologies.

TECHNICAL SKILLS Frontend Development

- HTML5/CSS3, JavaScript, TailwindCSS, React, MySQL, Figma.

Tools & Technologies

- Git, ChatGPT, GitHub Copilot, Cursor AI, Claude AI.
-

EDUCATION

Master of Computer Applications (MCA) – *Pursuing*

Bachelor of Computer Applications (BCA) – 69%

Intermediate (12th Grade) – 75%

High School (10th Grade) – 58%

PROJECT EXPERIENCE

E-commerce – Developed a fully responsive website using **React and TailwindCSS**, incorporating payment gateway integration to facilitate secure and seamless online transactions. Focused on

delivering an intuitive user experience, optimized performance across devices, and ensuring reliability in the checkout process.

Password Generator – Developed a responsive and secure password generator web application using **Vite and TailwindCSS** for fast development and optimized builds. The application allows users to generate strong, customizable passwords based on selected criteria such as length, uppercase/lowercase letters, numbers, and special characters. Implemented real-time UI updates and clipboard copy functionality for enhanced user experience. Focused on performance, modular code structure, and clean UI design.
