

SAURABH DAHARIYA

Full Stack Developer

 [Portfolio](#)  Bengaluru  7022836513  saurabhdahariya81@outlook.com  [Github](#)

SUMMARY

Full Stack Developer with hands-on industry experience building and shipping production features across the **React.js, Node.js, Golang, and MongoDB** stack. Currently contributing as a **Full Stack Developer Intern at Caplix Technologies**, working on **ReachShip**, a SaaS shipment management platform, building REST APIs, microservices, and React-based dashboards. Complements this with self-driven **AI-integrated full-stack projects (quiz platform, text-to-SQL converter, conversational portfolio)** using **OpenAI, Next.js, and Firebase**. Comfortable owning features end-to-end, from UI to backend to cloud deployment.

SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive UI Design
- **Backend:** Node.js, Express.js, Golang, REST APIs, Microservices, Java spring boot, Python
- **Databases:** MongoDB, Mongoose, MySQL, PostgreSQL
- **Cloud & DevOps:** AWS (ECS, S3), Docker, CI/CD Pipelines, Kubernetes (exposure), Kafka (exposure)
- **Tools & Auth:** Git, GitHub, JWT (exposure), ElevenLab API, OpenAI API, Firebase

EXPERIENCE

Full-Stack Developer Intern | Caplix Technologies | Pune

Oct 2025-Present

- Contributed to **ReachShip**, a **SaaS-based shipment management platform** integrating **multiple shipping carriers via REST APIs**, building RESTful APIs and microservices with **Golang, Node.js, and Express.js** to support high-volume order and shipment processing.
- Integrated **MongoDB (Mongoose)** for shipment data storage and built backend logic for real-time shipment tracking and workflow automation, leveraging **Kafka** for **asynchronous event processing** to improve system responsiveness.
- Implemented **JWT-based authentication** and **OAuth 2.0** flows to secure platform access, and built **React.js UI components** for **shipment tracking dashboards**, improving usability and reducing manual tracking effort.
- Deployed and maintained services on **AWS (ECS, S3)** using **Docker, with Kubernetes exposure**, and contributed to **CI/CD pipeline** development to streamline deployments; documented APIs using **Swagger** to support team-wide integration and onboarding.

PROJECTS

QuizByAI

 <https://quizbyai.vercel.app/>

 [github](#)

- Developed a full-stack **AI-powered quiz platform** using **React.js, Tailwind CSS, Firebase (Authentication, Firestore)**, and **OpenAI API**, enabling users to generate **dynamic, personalized quizzes** or **custom assessments** based on **topic, difficulty, and question count**, with **role-based access control** (Admin, Quiz Creator, User) enforced via Firestore security rules.
- Built **real-time analytics, result tracking**, and a **responsive, mobile-friendly UI** with smooth end-to-end user flows for **quiz generation, participation**, and review—enhancing scalability, security, and user engagement.

NaturalSQL

 <https://text-to-query-ai.onrender.com/>

 [github](#)

- Built an **AI-powered web app** that **converts natural language queries into SQL**, enabling easy database access for **non-technical users via React.js, Node.js, and OpenAI API**.
- Integrated **schema awareness** and a live demo mode with MySQL for seamless, **real-time query interaction**.

Smart Portfolio

 <https://saurabhdahariya.vercel.app/>

- Developed an **AI-integrated portfolio** using **Next.js** and **Tailwind CSS**, enabling **recruiters** to interact via **voice** or **text**.
- Leveraged **OpenAI API** to generate **intelligent responses** based on **preloaded resume** and **project data**.
- Built **context-aware navigation logic** to **dynamically route** users to **specific pages** triggered by **AI query interpretation**.

EDUCATION

Bachelor of Technology (Information Technology)

Sep 2019 - Jun 2023

Bhilai Institute Of Technology,Durg

TRAINING

FULL STACK DEVELOPMENT

Sep 2024 - Feb 2025

JSpider BTM Layout, Bengaluru
