SUMMARY

B.Tech Computer Science student with a strong foundation in Java and backend development using Spring Boot. Experienced in building full-stack web applications and RESTful APIs, with working knowledge of React.js for frontend development. Skilled in writing clean, efficient code and collaborating using Git. Passionate about developing scalable applications, solving real-world problems, and continuously learning modern technologies.

SKILLS

- Programming Languages:** Python, Java
- Backend Development:** REST APIs, Spring Boot
- Frontend Development:** React.js, HTML, CSS, JavaScript
- Database:** MySQL, MongoDB
- Version Control:** Git, GitHub
- Core Concepts:** OOP, Data Structures & Algorithms
- Additional:** Exposure to Large Language Models (LLMs)

WORK EXPERIENCE

Infosys Springboard	Remote
Web Development Intern	Oct 2022 - Feb 2026
Developed the SkillConnect Freelance Marketplace using Django, implementing secure user authentication, job posting, application tracking, recruiter dashboards, and email notification features following industry best practices.	

PROJECTS

Web Vulnerability Detection System	Aug 2025 - Apr 2026
- Designed and implemented a web vulnerability detection system that identifies common security threats such as XSS, SQL Injection, CSRF, and malicious requests using rule-based checks and machine learning techniques. - The project analyzes HTTP requests, classifies attack patterns, assigns severity levels, and generates detailed security reports to support proactive web application security.	
SkillConnect – Freelance Marketplace	Nov 2025 - Feb 2026
- Developed a full-stack web platform connecting freelancers and recruiters with features like secure authentication, job posting, application tracking, recruiter dashboards, and automated email notifications. - The system streamlines hiring by enabling efficient job matching, application review, and real-time communication between recruiters and freelancers.	
Task Management System	
- Developed a full-stack application to manage tasks with features like create, update, delete, and status tracking. - Built RESTful APIs using Spring Boot and integrated with a MySQL database for efficient data handling. - Designed a responsive frontend using React.js for seamless user interaction and real-time updates.	

EDUCATION

Vasireddy Venkatadri Institute Of Technology	Guntur
Bachelor of Technology in Computer Science and Engineering	Sep 2022 - Apr 2026
CGPA 8.55	
Sri Venkateswara Junior College	Guntur
Intermediate	Dec 2020 - Jun 2022
Z.P.H.School	Guntur
Secondary	Jun 2019 - May 2020

CERTIFICATIONS

- Google Cloud Program (GCP): Global Certificate
- Hedera Blockchain Developer Course
- Introduction to Cybersecurity: CISCO
