PROJECTS

Campus Rides — Full-Stack Trip Sharing Platform 2025

[campus-rides-henna.vercel.app](#) [github.com/AmanG89/campus-rides](#)

- Node.js · Express · MongoDB · React · Firebase · Cloudinary · WebSocket · JWT · Render · Vercel
- Built a full-stack campus ride-sharing app enabling students to post, find, and join shared trips.
 - Designed and implemented RESTful APIs with Node.js/Express for authentication, trip management, and real-time chat using WebSockets.
 - Integrated Firebase Auth (Google OAuth) and JWT-based session management for secure login.
 - Used MongoDB aggregation pipelines for optimised trip queries and profile-to-trip sync.
 - Managed profile image uploads and lifecycle with Cloudinary.
 - Deployed frontend on Vercel and backend on Render with environment-based CORS configuration.
