EXECUTIVE SUMMARY

Aspiring Software Engineer and AI enthusiast with a strong foundation in Full-Stack Development and Machine Learning. Proficient in building scalable web applications using the MERN/Python stack and integrating intelligent models to solve real-world problems. Experienced in deploying end-to-end solutions, from front-end design to model inference and API development. A proactive problem-solver with a focus on data-driven application development and MLOps, seeking an internship to leverage technical expertise in creating impactful, AI-powered software solutions.

TECHNICAL SKILLS

- **Web Technologies** - HTML5, CSS3, JavaScript (ES6+), Bootstrap
- **Programming Languages** - Python
- **Databases** - MySQL
- **Tools & Platforms** - Git & GitHub, VS Code, Linux (basic)

EDUCATION

- **B.Tech – Information Technology** | Jeppiaar Engineering College, Anna University, Chennai
- **2024 – Present (Expected Graduation : 2028)**
- **CGPA :** 7.92 / 10

PROJECTS

Growth Sphere

Developed **Growth Sphere**, a responsive edtech landing page bridging the gap between professional learning and employment. I established the complete brand identity, created the core visual assets, and drafted high-conversion copy centered on the "Learning to Earning" mission.

Technologies: HTML, CSS, JavaScript

Link: <https://growthsphereit.netlify.app/>

Feature :

- Developed a responsive, user-centric edtech landing page bridging the gap between professional learning and career placement.
- Structured optimized web copy and visual layouts to communicate platform value metrics and boost user conversion rates.
