

SAOOD MIAN

Frontend Developer

+91-7900519312 | saoodsaiyed@gmail.com | linkedin.com/in/saoodmian | github.com/S-Saood

SUMMARY

Frontend Developer with experience building scalable, responsive web applications using React.js, JavaScript (ES6+), and TypeScript. Skilled in React Hooks, SPA development, REST API integration, JWT authentication, and component-based architecture. Experienced in mobile-first UI development using Tailwind CSS and Vite, with focus on performance optimization and state management using Context API. Proficient in Git workflows.

SKILLS

Languages: JavaScript ES6+, TypeScript, HTML5, CSS3, Python

Frontend: React.js, React Router, React Hooks, Context API, Tailwind CSS, Bootstrap, Material UI, Vite

Backend: Node.js, Express.js, RESTful APIs, Axios, Authentication and Authorization

Databases: PostgreSQL

Concepts: Responsive Web Design, UI/UX Development, State Management, API Integration, Component-Based Architecture, Single Page Applications (SPA)

Tools Platforms: Git, GitHub, VS Code, Postman, Vercel, Netlify, Hostinger, Razorpay

PROJECTS

AI Recipe Generator | React.js, Gemini API, Netlify

- Built an AI-powered recipe generator using React.js and Google Gemini API, allowing users to input ingredients and receive structured recipes with name, ingredients, and step-by-step cooking instructions.
- Integrated Gemini API with asynchronous request handling (fetch, async/await) and dynamic state management for loading states and real-time UI updates; deployed the application on Netlify.
- GitHub:** github.com/S-Saood/Recipe-Generator **Live:** recipe-generator-bitex.netlify.app

Atmosphere – Live Weather Dashboard | React.js, CSS3, OpenWeather REST API

- Architected a responsive weather dashboard using React.js and OpenWeather REST API, displaying real-time weather metrics and 5-day forecasts through asynchronous API handling.
- Engineered reusable React components with scalable architecture, light/dark mode support using CSS variables, and full responsiveness across mobile, tablet, and desktop devices.
- GitHub:** github.com/S-Saood/WeatherAppBiteX **Live:** weatherappbitex.netlify.app

Notiva Keeper – React Notes Application | React.js, Material UI, JavaScript (ES6+), LocalStorage, CSS3

- Built a React-based notes application with full CRUD functionality using React Hooks, reusable components, and localStorage persistence for seamless data retention.
- Developed a responsive Material UI interface with reusable components, theme support, and efficient React state management.
- GitHub:** github.com/S-Saood/NotivaKeeperApp **Live:** notivakeeperapp.netlify.app

EXPERIENCE

Nexe-Agent

May 2026

Frontend Developer Intern

Remote (1 Month)

- Built and maintained responsive, reusable React.js components using JavaScript (ES6+) and modern CSS, improving UI structure through component-based architecture.
- Integrated REST APIs and resolved frontend bugs in a collaborative, Agile-based environment, following Git workflows and clean coding practices.

EDUCATION

Invertis University, Bareilly, Uttar Pradesh

2023 – 2026

Bachelor of Computer Applications (BCA) | CGPA: 7.4/10

Expected Graduation: 2026
