Work Experience

Frontend Developer Intern

Jan 2025 – Mar 2025

Codtech IT Solutions

Remote, Haryana

- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility.
- Translated UI designs into reusable and maintainable frontend components following clean coding practices.
- Implemented modern layout techniques and interactive UI elements in real-world web projects.
- Debugged and resolved UI issues in collaboration with the team to enhance overall user experience.

Projects

Personal Portfolio Website

Live: <https://my-porttfoliio.netlify.app/>

- Designed and deployed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase frontend projects and skills.
- Implemented intuitive navigation and a clean UI to enhance recruiter and user experience across devices.
- Applied responsive design principles to ensure cross-device compatibility across desktop, tablet, and mobile screens.
- Optimized layout structure and content presentation to improve accessibility and usability.

Amazon Mini Clone

Live: <https://amazon-minii.netlify.app/>

- Built a functional Amazon-style e-commerce UI clone using HTML and CSS, replicating navigation, product listings, and layout structure.
- Implemented responsive headers, navigation menus, and product sections to simulate a real online shopping user experience.
- Applied modern layout techniques using Flexbox and CSS Grid to ensure cross-browser and cross-device compatibility.
- Translated a complex real-world UI design into clean, structured frontend code with attention to layout consistency.

The Food Hub

Live: <https://the-food-hubb.netlify.app/>

- Developed a responsive restaurant website using HTML and CSS with sections for menu, categories, testimonials, and contact form.
- Focused on user-friendly navigation and consistent layout structure to deliver an intuitive browsing experience.
- Implemented modern CSS styling techniques to enhance visual appeal, usability, and overall user experience.

World Tour

Live: <https://the-world-tour.netlify.app/>

- Created a responsive travel website displaying destinations with images and descriptive content using structured layout design.
- Applied modern styling techniques and responsive layouts to ensure seamless navigation and cross-device compatibility across different screen sizes.
- Improved user engagement through clear layout organization, intuitive navigation, and visually appealing UI.
