Objective

Motivated and enthusiastic Final-year Computer Engineering student. Seeking internship opportunities to gain practical experience, apply theoretical knowledge, and contribute effectively to real-world projects.

Projects

Travel Guide Website

Built an interactive travel guide platform to help users plan trips efficiently. Integrated location-based recommendations and customizable itineraries.

Technologies Used: JavaScript, MySQL, HTML, CSS

Android App for cyber security Awareness

Developed a responsive Android app providing insights into cyber threats and crimes to educate individuals on cybersecurity.

Technologies Used: Android Studio, Firebase

AI-Powered Health Management System

Flutter-based health app with user/doctor registration, appointment booking, personalized AI chatbot, diet planner, and medicine reminders, powered by Firebase for real-time data management.

Technologies Used: Flutter, Dart, Firebase

Portfolio Website

Created a responsive personal portfolio website showcasing projects, certifications, and contact details. Ensured cross-browser compatibility and modern design principles.

Technologies Used: HTML, CSS, JavaScript

Education

B-Tech, Computer Engineering

Marwadi University, Rajkot, Gujarat

Expected Graduation: March 2026

Current CGPA: 6.01

XII (CBSE)

Smart Move Academy, Gopalganj, Bihar

58% | 2022

Certifications

Database Programming with SQL

(Oracle Academy)

Programming with Python

(Coursera)

CCNA: Introduction to Networks

(Cisco Networking Academy)

Relevant Coursework

Data Structures and Algorithms •

Database and Management System •

Computer Networks • Object-Oriented

Programming • Operating Systems •

Programming for Android

Skills

Programming Languages: C, JavaScript, Python

App Development: Using Android Studio & Flutter

Web Development: MERN Stack, ASP.NET, Streamlit

Tools: Figma, Canva, Photoshop, Capcut
